## **SUPPORT INFORMATION AND SERVICES**

We are committed to promoting a safe and balanced approach to social gameplay. If you ever find yourself struggling to manage your gameplay habits, or notice behaviors such as spending excessive time playing, feeling restless when not playing, or experiencing financial stress related to gameplay, we strongly encourage you to seek professional guidance and support. Recognizing these patterns early and taking proactive steps can prevent negative impacts on your wellbeing, relationships, and daily life.

### **Proactive Steps for Healthy Gameplay**

Taking deliberate actions can help maintain control and balance. For example:

- **Schedule Your Playtime**: Set specific times of day for gameplay instead of playing spontaneously. Treat it like any other daily activity.
- **Take Regular Breaks**: Take regular short breaks to stretch, rest your eyes, or switch to another activity. These pauses help reduce fatigue and improve focus.
- **Set Deposit Boundaries**: Plan a budget for entertainment and avoid exceeding it.
- **Balance with Other Activities**: Include offline activities in your day - exercise, hobbies, chores, or social time to keep gameplay in perspective.
- **Mind Your Energy Levels**: Avoid playing when you're tired, stressed, or hungry, as this can lead to excessive behavior.
- **Reflect on Your Gameplay**: Take a few minutes at the end of each session to consider whether your gaming time felt balanced and enjoyable.

## **PREVENTING UNDERAGE ACCESS**

We are committed to maintaining a safe social gameplay environment, which is why we use a variety of age-verification measures. However, we recognize that internet-enabled devices can sometimes make it easier for minors to access adult content. That's why supervision at home is crucial to keeping gameplay safe - **Parents and guardians play a central role in ensuring that minors do not access platforms intended for adults.**

Below are some practical steps and examples to help manage device use at home:

- **Keep your login details private:** Do not share your username, password, or payment information with minors, and avoid having them auto-filled on shared devices.  
*For example, if you use a shared family tablet, make sure your Account requires a password each time it's accessed.*
- **Log out when you're done:** Always sign out of your Account, even if you're only stepping away for a few minutes.  
*For instance, if your child is using the same computer, logging out prevents accidental access to adult-only content.*
- **Monitor devices regularly:** Keep an eye on computers, tablets, and phones, particularly those with unrestricted internet access.  
*For example, check browser history or use built-in activity reports to see what apps or games are being used.*

- **Talk to minors about risks:** Have open conversations about the potential dangers of adult gameplay platforms and explain why certain content is not appropriate for their age.  
*For example, discuss how games with in-app deposits or adult themes are intended for adults only.*
- **Use parental controls if needed:** If devices are shared or used frequently by younger users, consider parental control tools or filtering software.  
*Examples include setting screen time limits, blocking specific apps, or using content filters on web browsers.*
- **Check activity occasionally:** Periodically review Account activity to ensure there has been no unauthorized access.  
*For example, review login history on your gaming platform to confirm no one else is using your Account.*

Please remember that you are responsible for keeping your Account secure and ensuring it is only accessible to you.
